Voted Best Flooring

Welcome

to the **Associated Carpet Group**

A national buying group dedicated to supporting independent carpet and flooring retailers

ACG are a not for profit, nonintrusive, member owned national buying group made up of over 315 member stores. Consisting predominately of independently family run businesses, ACG uses the combined buying power of its member stores to broker the best trade pricing from the industries main manufactures, which ensures that our retailers can comfortably compete with high street, online and man in a van, price comparisons without fear of eroding their margins.

Along with the multi award winning Smart Choice group branding, regular manufacturer price and unitary promotions, members also benefit from annual turnover rebates which are paid direct from the suppliers to the members.

As we are not for profit, everything we strive to achieve is for the benefit of our member stores, whilst we run the group operations within the annual subscription fee. Membership is by association, and you would not be required to change any of your current inhouse processes and your relationship with your suppliers remains the same.

Our aim is to identify quality independent retailers who trade directly with the groups preferred suppliers, and in doing so, would return more in membership benefits than the cost of subscription. In return, the group increases turnover through those suppliers, strengthening our relationship and enabling us to continue to negotiate the best trade deals within the industry.

Annual membership runs from September 1st to August 31st with the cost of subscription being £995 +VAT (plus £245 +VAT per additional branch). Should you wish to join part way through the subscription year, membership would be invoiced for the remaining period up to the end of the following August. Rebates are accrued over the calendar year and are paid directly to the member by the supplier by way of a credit note.

This brochure outlines the many benefits membership offers our retailers, along with a list of the industry's leading manufacturers who partner with ACG.

If you are interested and would like to know more, I would welcome the opportunity to discuss any queries you may have regarding membership and look forward to hearing from you soon.

"It's great to be in association with ACG. The shared goal of improving profitability while maintaining the independence of members is indeed crucial for a successful partnership. The emphasis on buying at the best possible price and sharing the benefits of top offers demonstrates a commitment to mutual success. Put alongside this the sense of camaraderie within the group's employees, where everyone cares about both members and suppliers, creates a special and supportive environment.

Being proud to be affiliated with ACG and looking forward to supporting the group in the upcoming year reflects a strong and positive connection with Telenzo. With our 'new for 24' lectern being launched and your exclusive BOGOF deal recently launched I know our brand relationship will go from strength to strength. Kingsford were recently approached by Home Comfort Carpets and ST Flooring to rebrand their businesses which included a new corporate identity, mobile responsive website, shop signage and vehicle livery, with outstanding results.

"Having decided that we wanted a fresh new look for our business we were advised by ACG to contact Kingsford. We gave them a short creative brief and a week later we were presented with a number of new logo ideas and colour options along with visuals for our shop frontage, vans, stationery, price tickets and new website.

We absolutely love what Kingsford have created for us, it looks so professional. Their superior knowledge of the carpet and flooring industry proved very valuable, we're so pleased with the end result.

"We joined ACG because we get the best deals on the best products in the market. Another big advantage for us is the marketing support. We have recently had a company rebrand, new website and shop signs produced by the ACG preferred agency, Kingsford. It's had a very positive impact on our business and certainly got us noticed!"

Kristoffersen Carpets & Flooring Ltd Edinburgh, Lothian

"Over the course of the last couple of years, Kristoffersen's has undergone some fairly big changes. New ownership as well as expanding our number of stores from five to six. The one constant throughout this time, and for many years before, has been our relationship with ACG. A long-standing business relationship that's allowed for friendships to be made, as well as supporting our way of doing business.

The ability to de-brand some well-known manufacturers remains a key feature in a

highly competitive market here in Edinburgh, allowing us to clinch some sales at reasonable price, without having to discount away a profit margin.

Plus, the rebate system is a nice bonus for the business come year-end, with the additional money often being fed back into investing in our business; all from selling carpets we'd likely be selling regardless of the rebate structure. We wouldn't hesitate to recommend ACG to any retailer considering joining."

"ACG membership can be a great help to your business by giving you access to really competitive prices from Europe's best known carpet manufacturers

You can choose to sell under the manufacturers branded names or opt for more exclusivity by using ACG own label stands and display units.

Thirdly you can benefit from regular off invoice discounts plus lucrative year end rebates.

We also get to meet up with some like-minded people, enjoy their company, gain insights into how they operate and take this back into our own business.

Group Development Manager

Friendly, Approachable and Supportive

I'm **Jon Richardson** and I'm responsible for group development. I am continually searching for quality retailers to join ACG and share in its success. I believe now, more than ever, that there is no better time to consider how your business can benefit from group membership.

With over 40 years' experience in the flooring industry across several sectors, including retail and manufacturing, I believe I have developed the skills and knowledge to enable me to successfully promote, aid and service both new and existing members. I instinctively know the expectations of the retailer, whilst understanding how the supplier's work. This ensures everyone gets the best deal.

ACG is a not-for-profit organisation focusing on securing the best trade deals for its membership without any corporate pretensions. The financial side of it is very transparent with members getting paid rebates directly by their suppliers as well as enjoying better pricing.

"Where's the catch?" I am often asked. There are no catches or drawbacks, only positive benefits and more profitability. You do not need to change the way you currently process orders with suppliers and your trading relationships remain the same. Retaining independence remains key to ACG's growing family of retailers.

Our philosophy is simple, if you place your business with the main industry suppliers, you should recover your subscription cost, earn additional rebates and generate more margin for your business on an annual basis.

ACG also offers more protection and more profitability with a range of prestigious point-of-sale units to give a quality, professional feel to the in-store environment. This reinforces the valuable benefit of own-label marketing, using ACG's distinctive Smart Choice branding to present ranges with an added-value feel without the threat of margin erosion through Internet or high street price comparison.

There really is nothing to lose but everything to gain!
